PROFESSIONAL SUMMARY

I am a dedicated Frontend Web Developer and freelancer based in Attock, Pakistan, currently pursuing a Bachelor of Science in Computer Science at Pir Mehr Ali Shah Arid Agriculture University Rawalpindi (Attock Sub-Campus). With hands-on expertise in HTML5, CSS3 and JavaScript, I design and develop clean, modern, fully responsive websites that deliver outstanding user experiences across all devices and screen sizes.

Beyond web development, I hold an A+ certified Computer Software qualification covering Microsoft Office, Data Entry, Graphic Design (Adobe Photoshop and CorelDRAW), Video Editing, AutoCAD 2D and InPage — giving me a versatile skill set that allows me to serve clients across multiple digital disciplines. I am an active freelancer on Fiverr and Upwork, consistently delivering high-quality work on time and building long-term client relationships built on trust and professionalism.

My long-term ambition is to deepen my expertise in software engineering, Machine Learning and Artificial Intelligence — combining strong technical foundations with creative problem-solving to build impactful digital solutions for clients and businesses worldwide.

★ SKILLS
